

THE ABILITY TO  
EXECUTE STRATEGY  
EFFECTIVELY CAN  
DEFINE AN  
ORGANIZATION'S  
SUCCESS.

SHARPEN PERFORMANCE.  
ACHIEVE EXCELLENCE.

# BRIDGING STRATEGY AND EXECUTION FOR SUCCESS

## Understanding Strategic Execution

Strategic execution is the translation of smart strategies into effective results. It's the realization of your organization's big ideas achieved through an orchestration of processes, projects and proficiencies that drive successful performance.

When all the facets of your organization are aligned and working cohesively, strategies succeed. When there's a breakdown at any point, let alone several, even the best ideas can falter and fail.

## Why Strategic Execution Skills are Critical

**Does your organization have the right people and the right strategies in place but fail to produce anticipated results? Does your company have a clear vision but struggle to break through to the next level?**

Mastering strategic execution across your organization is absolutely crucial to achieving results and securing a competitive advantage. Without those skills in place, your best resources—talent, ideas, money—are squandered.

**Only 9% of companies are rated excellent at execution. That means 91% aren't performing as well as they could be.<sup>1</sup>**

## Equip and Empower Your Organization

Every organization can reach its desired level of excellence with the right elements in place. We help you optimize performance with training solutions that:

- Identify areas for enhancement and prioritize investment and impact
- Develop and align strategic execution skills and strengths across your organization
- Empower leadership to anticipate risk, implement change, support process and drive results
- Benchmark needs and outcomes in order to tailor and refine learning plans

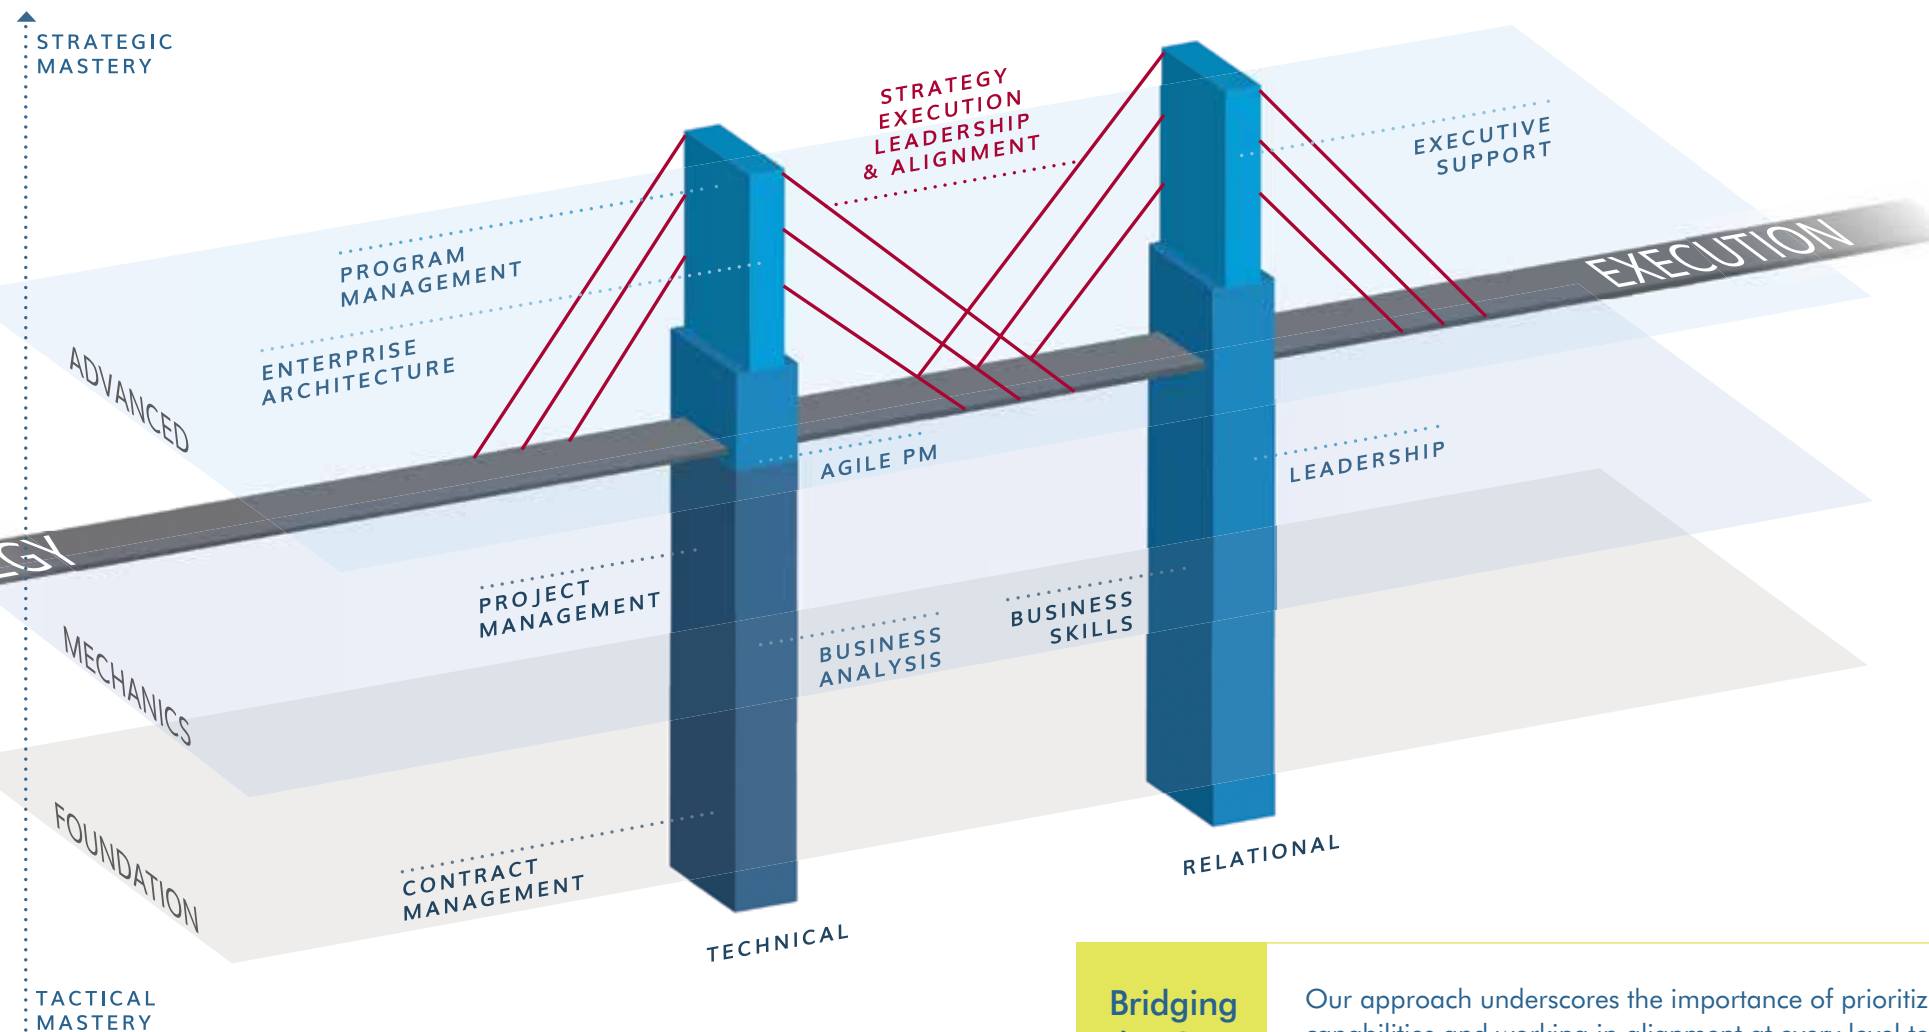

## Get to Know TwentyEighty Strategy Execution

We partner with organizations like yours to enhance strategic and project execution capabilities based on your unique needs—yielding meaningful results with measurable impact. TwentyEighty Strategy Execution offers performance education solutions that will transform the way you think, lead, execute and perform project-based work.

### Why work with us?
