

FAC-P/PM SERVICES

QUALIFIED, NOT JUST CERTIFIED

TwentyEighty Strategy Execution's position as an industry leader in supporting the professional development of the federal government's acquisition workforce affords us unique insight into the challenges faced by today's project and program managers. Our extensive work with diverse agency clients lets us guide management at all levels in the current best practices needed to deliver projects and programs on-time and on-budget, while meeting organizational requirements.

Our federal PM curricula experts developed a full suite of FAC-P/PM services to assist your agency in aligning federal policy compliance requirements with strategic and mission-oriented performance goals.

Certification Program Development

reflects the best practices we have compiled from our extensive work in successfully supporting the FAC-P/PM efforts of major federal agencies. Strategic Execution can evaluate your business processes as they relate to FAC-P/PM reporting requirements and can also help you to develop the internal documentation and processes needed to identify potential candidates, capture current work experience and competency level, and track their status through the program.

Courseware Evaluation

team will review your agency's internal course offerings and map learning objectives to the appropriate FAC-P/PM competencies in order to complete the training blueprints required by FAI for agency training program review. Strategic Execution can assist in linking the agency's course offerings across all three FAC programs and help translate this information for incorporation into the mandated Acquisition Human Capital Plan to be submitted to OFPP on an annual basis.

Training

is an integrated and comprehensive professional development program that approaches acquisition and program management from the perspective of the integrated project team. We offer 15 fully FAI verified FAC-P/PM courses across all three certification levels. Our multiple course delivery modalities include on-site, open enrollment, and virtual classroom to make our training accessible to those who need it, wherever they may be located. Our virtual classroom option maximizes learning opportunities as well as time.

Strategic Execution's extensive expertise will help you navigate the certification process and ensure that your learning program remains not only compliant with federal requirements, but that it provides your workforce the qualifications they need in order to meet your organization's mission.

TwentyEighty Strategy Execution's fully revised FAI-verified FAC-P/PM certification training curriculum is available through the GSA Schedule. The GSA contract number is GS-02F-0058P.

Federal Acquisition Institute (FAI) verified certification courses have been reviewed by FAI and they have verified the courses properly align to the applicable Office of Federal Procurement Policy (OFPP) competency model and federal certification policy.
