

# WHAT DO STUDENTS SAY ABOUT TWENTYEIGHTY STRATEGY EXECUTION'S FAC-P/PM TRAINING?

## OUR CLIENTS' TESTIMONIALS

### ATF

- "I am working with a major contract and this class gave me a process to use when laying out the projects."

### National Park Service

- "I now have better tools to work through conflict and change so both will go more smoothly and quickly."

### GSA

- "I came back from this event with a plan to work out a regional lessons learned program."
- "I was able to use the knowledge to put in rational program time lines for execution. We threw away the dart board, and replaced it with rational, sound data to determine program timing. Thank you!"

### Library of Congress

- "This training will improve my planning and meeting deadlines more efficiently."
- "This [program] provided a clearer understanding of what it is to realistically plan, implement and execute a project within a timely fashion."

### FAA

- "I learned that I will definitely have a different approach to my acquisitions based on the prep work prior to writing the PWS. I will also fight harder to establish a team of qualified members that stay with the project vs. allowing management to create a team for me."
- "As a branch chief supervising project managers, I will work with the PMs to establish accurate schedules and cost estimates, but more importantly use the material in dealing with change to projects and risk assessment."

### US Navy

- "I have several projects that are kicking off or just beginning. These Program Management techniques will help me to ensure that they are done correctly and on time."

### DHS

- "The training gave me a better understanding of the processes that must be taken with Program Management and how a project rolls up to meet the overall goals of the agency. This allows me to connect the dots within my environment to keep projects in line with goals."

### Department of Interior

- "The class helped define earned value and how it is a useful concept in the work I do."

### SEC

- "I found the entire course relevant and useful. What I did appreciate was attending the course with others in my organization. It helped me to understand some of their concerns, where the Information Technology group is in the Project Management process, and knowing we can speak the same language by having the same understanding of project management concepts."
- "By hosting the course, my organization demonstrated a project management commitment to me which helps me to support their direction and apply the learned skills in my job."

### IRS

- "I will be able to come up with a successful QAP and an action plan for a successful PWS. I will also be able to write a more well-rounded statement of work."

TwentyEighty Strategy Execution's fully revised FAI-verified FAC-P/PM certification training curriculum is available through the GSA Schedule. The GSA contract number is GS-02F-0058P.
