# ADVANCED FEDERAL PROJECT MANAGEMENT ASSOCIATE'S AND MASTER'S CERTIFICATES

In partnership with The George Washington University (GW), Strategy Execution offers two advanced federal project management certificate paths. The first allows you to obtain an Associate's Certificate in Advanced Federal Project Management. This certificate exhibits your knowledge and skills within the advanced federal project management discipline. The second is a Master's Certificate in Advanced Federal Project Management from Strategy Execution and GW.

Obtaining the master's certificate allows you to add GWCAFP credentials after your name, and highlights your expertise in the field of advanced federal project management. The GWCAFP (The George Washington University Certified Advanced Federal Project Manager) certification, established by Strategy Execution in association with the GW School of Business, is a recognized credential in advanced federal project management. A GWCAFP practitioner has acquired advanced federal project management knowledge through the successful completion of at least seven Strategy Execution courses that lead to a Master's Certificate in Advanced Federal Project Management.

Certificates from Strategy Execution and GW acknowledge and reward individual achievement while adding authority to your organization's strategic learning initiatives. We believe the right learning and development initiative that centers on the measurement of mission outcomes, can help you do both, and get the certification you need in the process.

**Completing all 4 core courses required for the Advanced Federal Project Management will also fully satisfy the training requirements for the **FAC-P/PM Level 2** certification. For more details on FAC-P/PM training please go to [www.strategyex.com/facppm](http://www.strategyex.com/facppm).**
